Welcome Back! Sadly several of our participants have moved but we are pleased to welcome newcomers to the program.

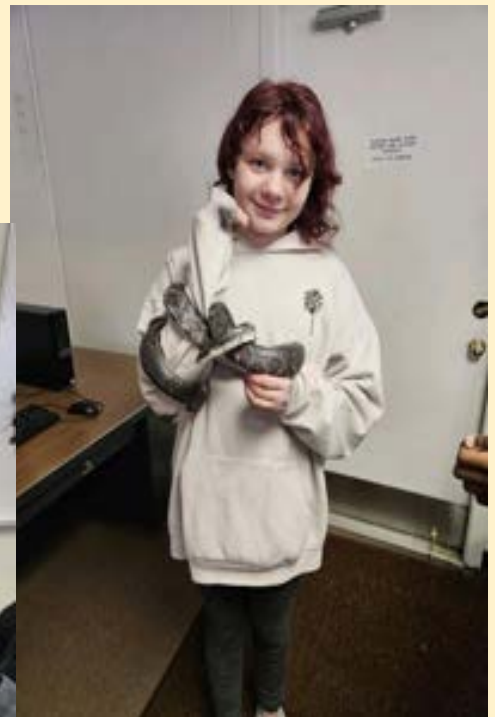

The Greer Community Learning Center 2024 program continued with the last session of the six week series of the Saturday Science Club. Participants engage in a lesson on copper plating an iron nail.

Participants, working together in groups of two, receive instructions from Ms. Carol for mixing the ingredients together before placing a nail in the mixture.

After completing the experiment, a review of questions and answers follow.

During the second part of the Science Club, Ms. Carol teaches the participants about reptiles including how to handle the snakes. The participants learn quickly and enjoy the opportunity to hold them.
